Setting. Add on e-Wallet Module.

Please fixed Network IP address on Nexgo M1 Device.

Add 3 Payment types.

1.

The screenshot shows the 'Payment Type' window with the 'Detail' tab selected. The 'Code' is 3, 'Name' is 'Gobiz Credit Card', 'Type' is 'GoBiz Credit Card', and 'Post to Account' is '310-0021'. The 'IP Address' is 192.168.0.190, which is highlighted with a red box. There are checkboxes for 'is Default' and 'Show Logo'.

2.

The screenshot shows the 'Payment Type' window with the 'Detail' tab selected. The 'Name' is 'MyDebit', 'Type' is 'MyDebit', and 'IP Address' is 192.168.0.190.

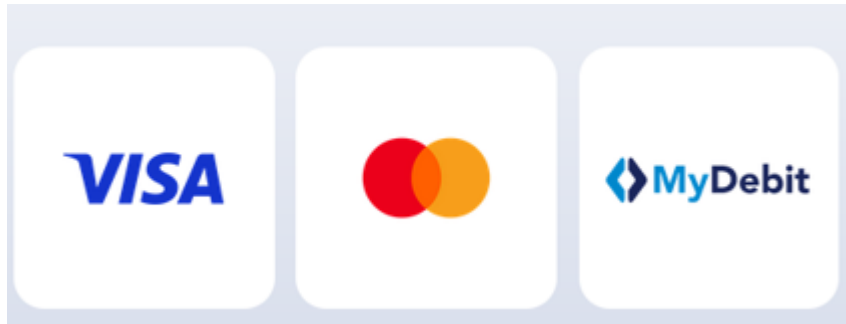

3.

The screenshot shows the 'Payment Type' window with the 'Detail' tab selected. The 'Name' is 'M1 Pay Wallet', 'Type' is 'M1Pay Wallet', and 'IP Address' is 192.168.0.190.

During payment collection, click to select Payment Type.

The screenshot shows the 'Receive Payment' window. On the left, there is a 'Voucher' section with a 'Sub Total' of 33.00, 'Discount' of 0.00, 'Rounding' of 0.00, and a 'Total Amount' of 33.00. The 'Pay by' is set to 'CASH'. Below this is a 'Tender Amount' of 0.00 and a numeric keypad. On the right, there are buttons for 'Simple Invoice' and 'Invoice', and a checkbox for 'Sales Order'. Below these are four buttons for payment types: 'MyDebit', 'M1 Pay Wallet', 'CASH', and 'Gobiz Credit Card'. These four buttons are highlighted with a red box. At the bottom, there are images of Malaysian currency: a 100 RM note, a 20 RM note, a 50 RM note, and a 50 RM coin.
